

# **Snapshots of GeoWeek 2021**

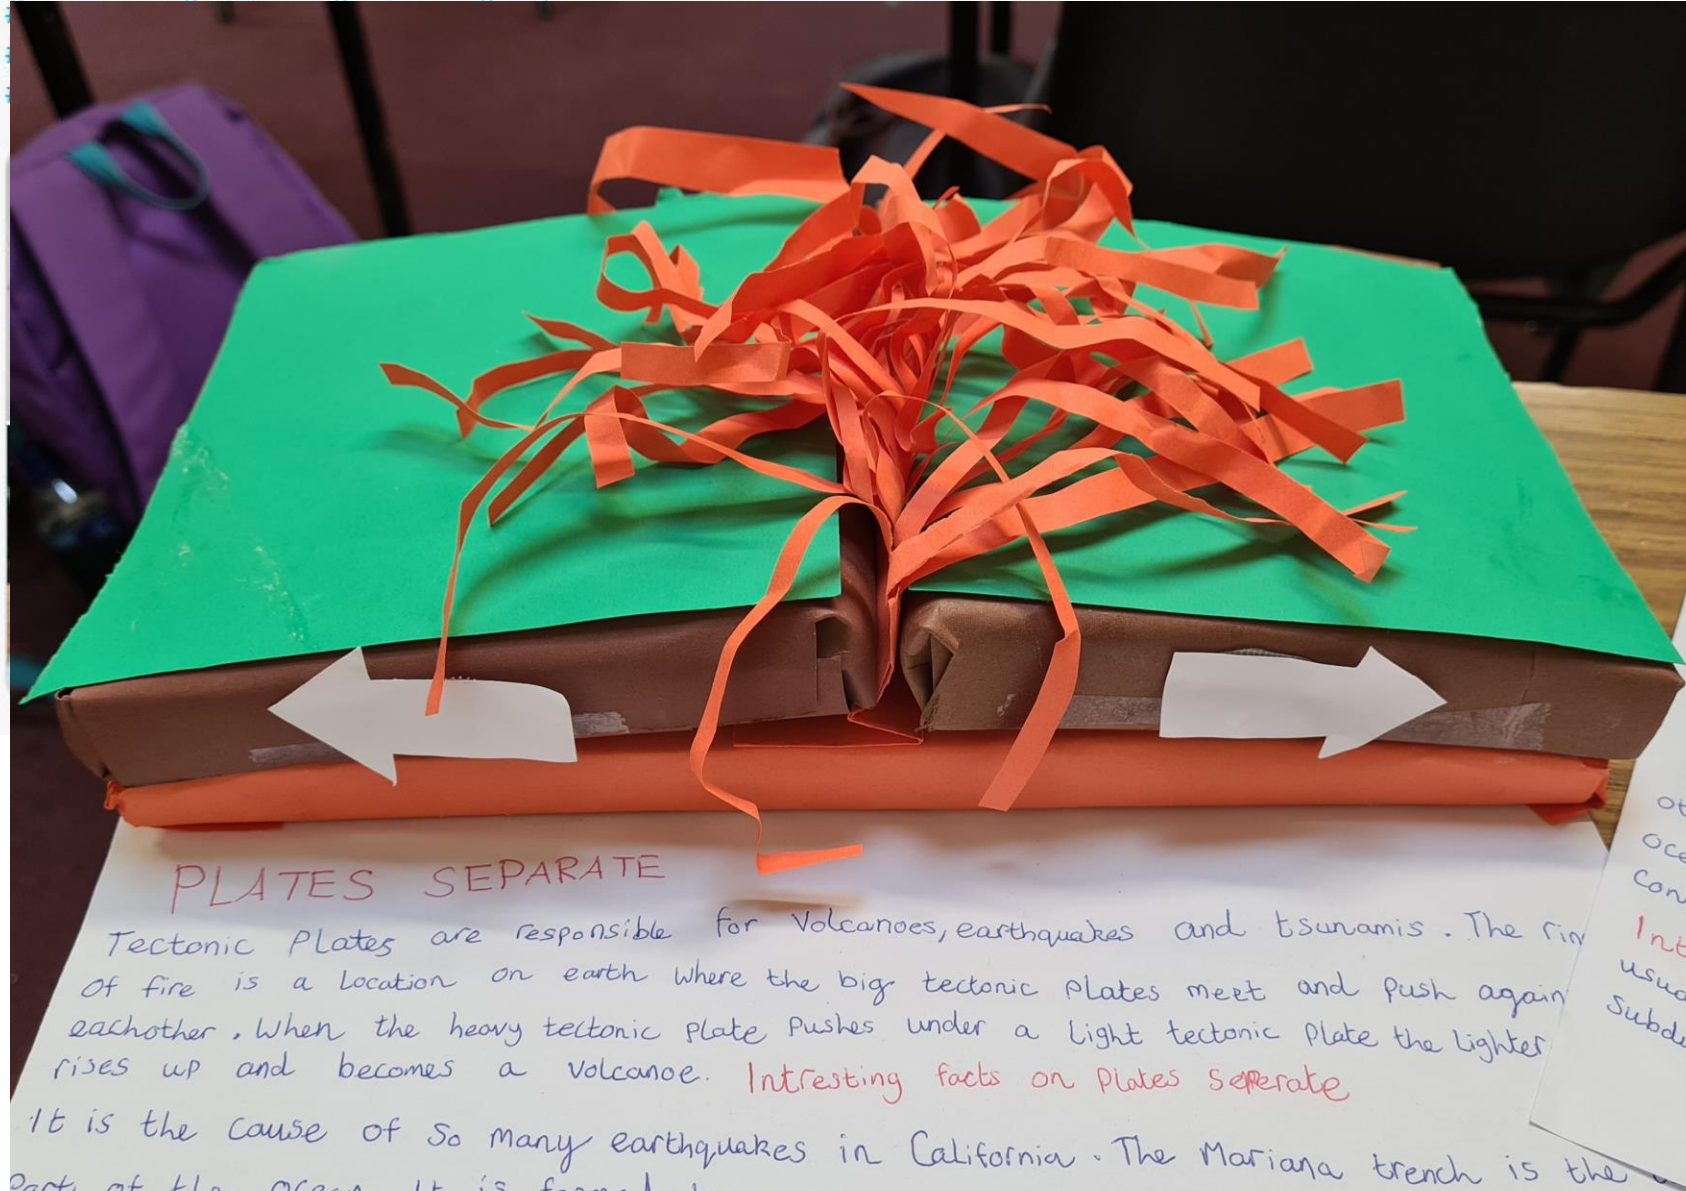

Geographical Society of Ireland Retweeted

AVSGeography @AVSGeography · Nov 17, 2021

Our Junior Cycle #Geography students at @AbbeyVS are celebrating #GeoWeek 2021.

Mr Clarke's 1st Year class have been busy creating geo-models -

OurLady'sTemplemore  
@ourladystm

This week is Geography Awareness Week!  
Well done to all of our first year students on their amazing Geography Projects. Their creativity and attention to detail is outstanding.

Congrats to all  
[@colmhuirecoed](#) 1st years who  
participated in CMCO  
[#GEOWeek2021](#)  
[#GeographyAwarenessWeek](#)  
poster competition. Here is a  
small sample of entries  
[#welldone](#) [#cmcoagobair](#)  
[@TipperaryETB](#)

# Geography Awareness Week

Geography is a subject about everything about the Earth  
Some may say Geography is out of this world.

## Volcano's

## The Earth

## Earthquakes

Without geography  
you're  
nowhere

Coláiste Mhuire Co-Ed.  
@colmhuirecoed

...

Last week @colmhuirecoed 1st years designed posters for #geographyawarenessweek2021. Congrats to Ewan who created the winning poster “without geography you’re nowhere” on his digital learning device 🙌🌍🌋🌊

Send in your Geography puns here

my friend can read maps  
better than everyone, hes a  
legend

**A very very flat  
globe** 🤔

Send in your Geography puns here

The flat earth society is  
booming, it has members all  
around the globe

**Must be a GY304  
student** 🗺️

Send in your Geography puns here

i love the way the earth  
rotates, it really makes my  
day

Send in your Geography puns here

what's a geologists favourite  
kind of music? rock

Maynooth Geography  
@Maynoothgeog

...

The puns just keep on  
coming in the @MUGeogSoc  
Geography Pun contest to  
mark #GeoWeek  
#GeoWeek2021

Can you think of a better  
Geography pun than all  
these classics? If "Yes", then  
get these in to MU Geog Soc  
asap'''

<p>Boundary type 1: <u>constructive</u></p> 	<p>Plate Boundary 2: <u>destructive</u></p> 
<p>Explain what is happening at this boundary...use the OREO's to help create and explain the process</p> <p>This is happening because the tectonic plates are moving away from each other.</p>	<p>Explain what is happening at this boundary...use the OREO's to help create and explain the process</p> <p>This happening because convection currents underneath are flowing towards each other</p>
<p>Plate Boundary 3: <u>transform</u></p> 	
<p>Explain what is happening at this boundary...use the OREO's to help create and explain the process</p> <p>this is happening because 2 plates move away from each other due to the convection currents beneath.</p>	<p>ANY OTHER INTERESTING FINDS ON THIS ACTIVITY...??</p> <p>TIME TO EAT AND ENJOY!!</p>

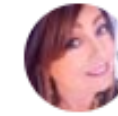

Coláiste Muire Ennis

@colaiste\_muire

...

1st year students learning about plate tectonics through an Oreo activity as part of [#GeoWeek](#). Best part was eating them at the end! 🍪 [@JctGeography](#) [@Maynoothgeog](#)

## What do I already know about Climate Change?

- Earth's climate has warmed up and cooled down many times over millions of years.
- Today, the planet is warming much faster than it ever has before in human history.
- Global air temperatures have risen by approximately 1 degree Celsius

UCD Geography  
@UCD\_Geography

...

In a good start to [#GeoWeek2021](#), students from our River Catchment Management module went on a weekend fieldtrip along the Glenasmole Reservoir & various stops along the Dodder. In the second photo you can see them conducting a mock hydromorphological (RHAT) survey at Beaver Row!

## Igneous Rocks

### Intrusive Igneous Rock

#### - Granite

Large crystals (cools and solidifies slowly because it's close to heat source)

\* The candle represents a volcano. The wax is the magma that is cooling inside.

### Extrusive Igneous Rock

#### - Basalt

Tiny crystals (cools and solidifies quickly because it's exposed to the earth's surface - away from a heat source)

\* The wax represents the lava cooling and solidifying on the earth's surface.

## Sedimentary Rock

### - Limestone

Time and compression of sediments.

The layers that form are called strata.

\* The starburst represent the layers of sediment. When pressure is applied, lithification occurs.

## Metamorphic Rock

### - Marble

Heat (Thermal Metamorphism) and pressure (Regional Metamorphism).

\* When heat and pressure was applied to our stratified rock, a metamorphic rock formed (Marble)

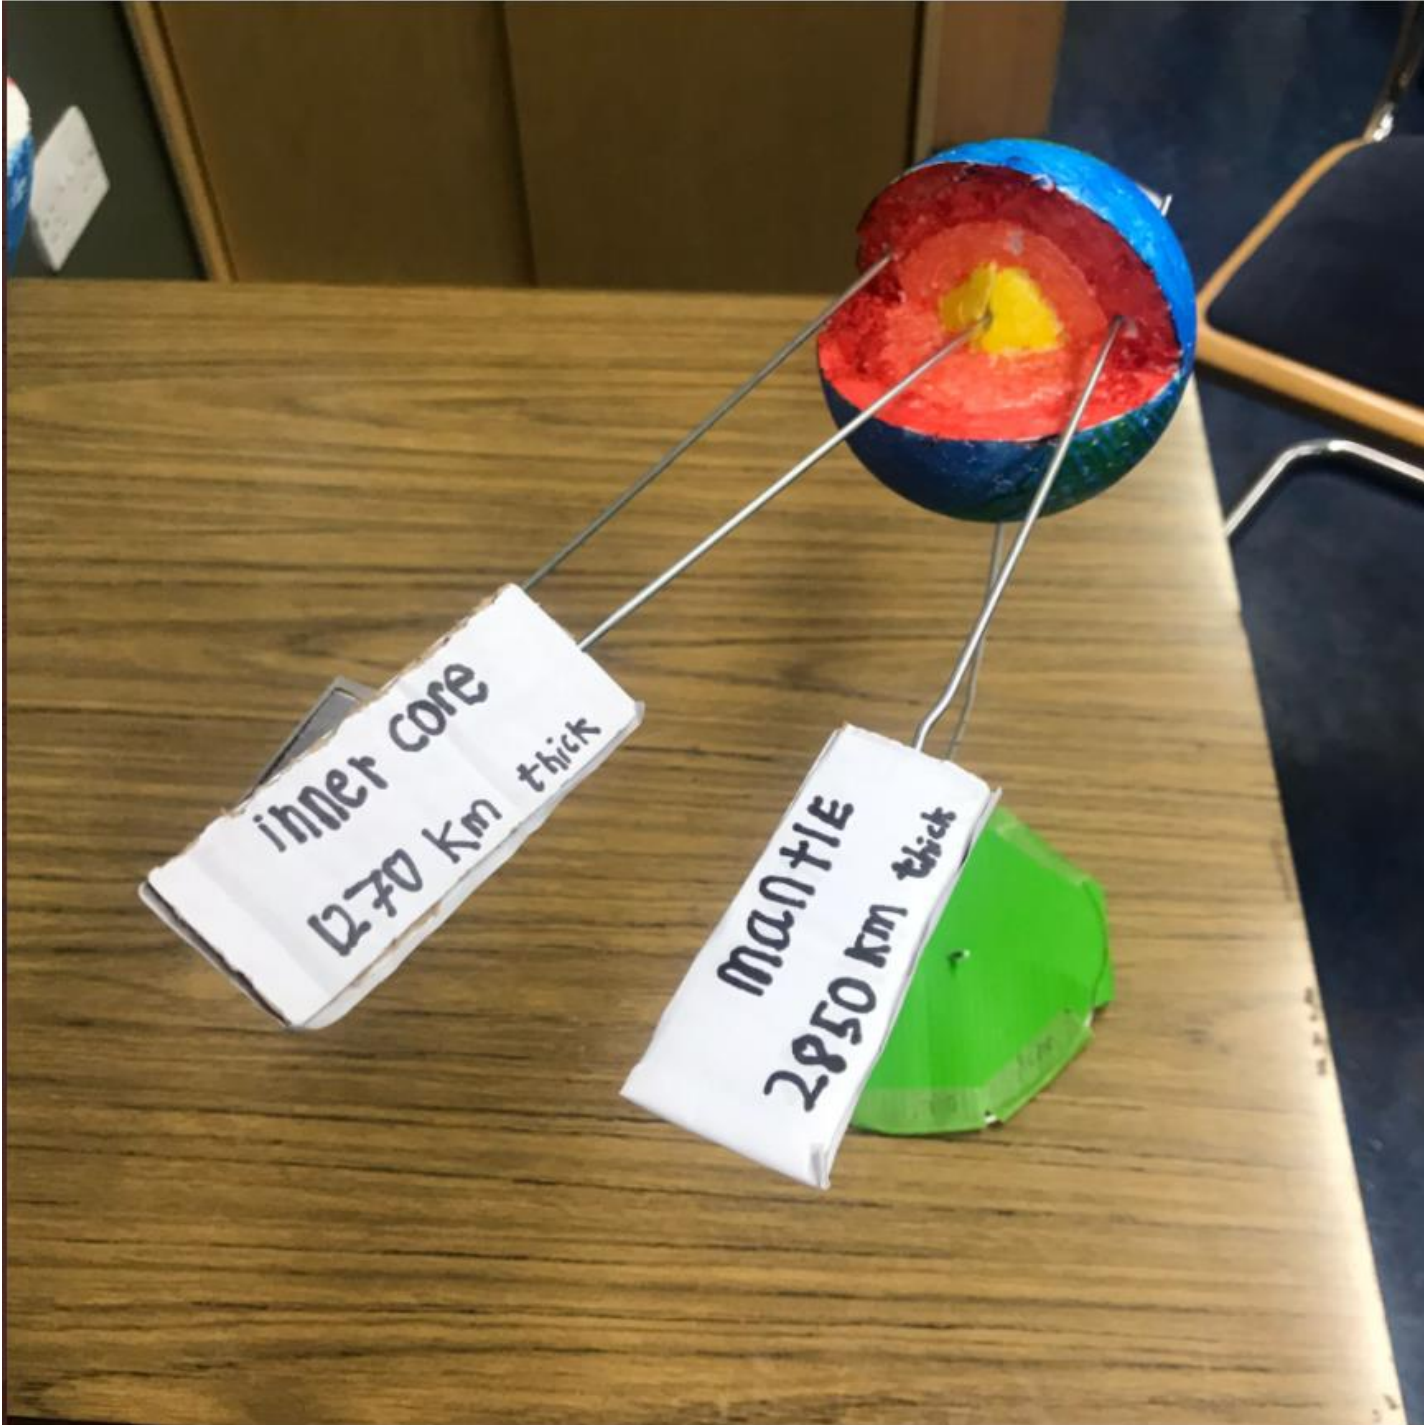

Sarah  
@sarahlucy\_

This week, in 5th year geography, we explored the rock cycle with a little twist!

Students used candles/starbursts to explain the formation and characteristics of igneous (intrusive/extrusive), sedimentary & metamorphic rock types! It was lots of fun! 🌋🌥️ #activelearning #rocks

First years are steeping into Geoweeek at Coláiste Íosagáin, Portarlinton by examining their carbon footprint and looking at ways to reduce it.

[@jctgeography](#) [#GeographyAwarenessWeek](#)

Geography Awareness Week is being celebrated this week in school. Junior Cycle students have been busy creating posters

[@kwetb](#) [@JctGeography](#)  
[#geoweb](#) [#thatsgeography](#)

”

The study of geography is about more than just memorizing places on a map. It's about understanding the complexity of our world, appreciating the diversity of cultures that exist across continents. And in the end, it's about using all that knowledge to help bridge divides and bring people together

BARACK OBAMA

UCD Geography  
@UCD\_Geography

...

As it is [#GeoWeek2021](#), we've been thinking about some of our favourite Geography-related quotes and facts! And since it is always more fun with friends, please add yours, tag people (because we know we've forgotten some 🙄) & retweet this thread!
